

# ICAMA Membership: Making Medicaid Happen since 1986

Membership matters. Your membership in the Compact and the work of the Association make Medicaid happen interstate. Here's how:

## The Compact

- **Coordinates and communicates.** Creates a framework of forms and policies under uniform, consistent practices to transfer Medicaid interstate. Reduces case management time and speeds the delivery of Medicaid to children and youth with special needs.
- **Unifies and strengthens.** Coordinates and combines messaging into a stronger, single voice for states to affect change within and across states and with federal agencies.
- **Staffs and facilitates.** Creates an experienced team of permanency professionals dedicated to the health and wellbeing of children and youth adopted from care.

## The Association

- **Informs and guides.** Gives analysis and guidance on federal legislation through Policy Update meetings, materials, and AAICAMA All State Memos.
- **Leads and partners.** Uniquely qualified to understand the cross section of Child Welfare and Medicaid to create and inform partnerships with states, the federal government, and NGOs.
- **Educates and trains.** Website, webinars, conferences, and resources provide staff development in the Compact, the ICAMA System, ICAMA Forms, and Child Welfare, Medicaid, and related law.
- **Advocates and supports.** Legal, technical assistance and advocacy provided to Members to inform and develop state policies and practices. Delivers mediation and resolution of interstate conflicts in support of state growth and development.

**AAICAMA and the States: Together, we make Medicaid happen.**
